

Specialist Care
Supporting Rehabilitation

Welcome to Stocksbridge...

Situated in Deepcar, Sheffield, Stocksbridge Neuro-Rehabilitation Centre is a brain injury rehabilitation centre offering specialist residential care for up to 23 individuals, including 8 continuing care beds for clients with complex care needs related to their brain injury.

Established over 20 years ago, our aim has always been to assess and rehabilitate clients to a point where they can be involved in their future care, either in a step down or community setting. Our programmes are led by our experienced

Consultant Clinical psychologist and supported by our multi-disciplinary team who deliver excellence in care, reflected in the positive relationships we have with residents and their families, and our current CQC rating of "Good."

Celebrating every step...

We are proud to help people and their families through difficult times with care, commitment, professionalism and compassion. It's extremely rewarding to witness the progress of those in our care; we celebrate each milestone along with you. We cater for rehabilitation of:

- **Acquired or Traumatic Brain Injury**
- **Stroke**
- **Encephalitis**
- **Tracheostomy**
- **Ventilated Clients**
- **Guillan-barre**
- **P'Doc Conditions**
- **Mild Challenging Behaviour**
- **Spinal Injury with Head Injury**

We undertake a range of therapies including physiotherapy, hydrotherapy, occupational therapy and speech and language therapy, supported by psychological strategies and timetables to ensure each individual gains the most from their rehabilitation. Our Rehabilitation Nurses provide care and assistance, in conjunction with our Consultant in Rehabilitation and close ties with our specialised local GP.

Part of the Family

We are always happy to welcome visitors, and promote family social times to take place within our Games Room, Cafe or, should you wish to join us, on our regular day trips and local activities.

"Since my brother came to stay here a corner has been turned for us... the amazing people here were waiting to meet him and to work with him and he changed almost overnight."

Sister of Resident

"At Stocksbridge, family are just as much part of the care as the client is. The tiniest achievement is a triumph and it shows on the faces and the actions of the team..."

Sister of Resident
